## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments, filed 5/27/2009 with respect to the rejection based on Furuyama in view of Sakata have been fully considered and are persuasive. The rejection has been withdrawn and reasons for allowance are given below.

Claims 2-4 and 19-21 have been rejoined to the application, as all inventions required for restriction in the office action mailed on 9/17/2008 depend from an allowable base claim.

### ***Allowable Subject Matter***

Claims 1-4, 7, 10, 11, 14, 17-21, 24-26, 29, 30, 33 and 36-38 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding **claim 1**, neither Furuyama nor Sakata disclose or suggest, "a package," "a mounting base with a second reference portion," "a bonding material for fixing [an] oscillator ... by utilizing a self-alignment effect occurring due to surface tension," and "wherein said second reference portion is formed by inclining at a certain angle with respect to a center line of said package."

Regarding **claim 18**, neither Furuyama nor Sakata disclose or suggest, "forming a package having a mounting base with a second reference portion which is formed by inclining at a certain angle with respect to a center line of said package;

placing said oscillator on said mounting base by aligning said first reference portion with said second reference portion by utilizing a self-alignment effect occurring due to surface tension of a bonding material."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
